

Company Environment, Social, Governance Policies

This compendium of Company Environment, Social, Governance (“ESG”) Policies has been formulated as part of the overall program of Cosco Capital Group to establish its overall Sustainability Framework that would serve as a platform for the Group’s long-term sustainability journey.

One of the primary immediate objectives that we intend to achieve is to be able to communicate to our stakeholders as well as international rating agencies and respond to their feedback and the clamor to improve the Corporate Governance and Sustainability scorecard. Thus, we shall disclose/publish the approved ESG Policies in our website accordingly.

These Company ESG Policies will also serve as a guiding framework for the entire organization as well as the relevant value and supply ecosystem of Cosco Capital Group in implementing the necessary programs and processes that would require changes and enhancements along the way.

Some of the policies are a reiteration from the Manual of Corporate Governance dated May 2017 and some policies are newly created or improved policies that we hope would meet the requirements of our investors, rating agencies as well as the Philippine regulatory bodies in terms of ESG/sustainability.
